song: Only You

A                    E            F#m                    E                    D                    A            E  
Looking from a window above is like a story of love, can you hear me?

A                    E            F#m                    E                    D                    A            E  
Came back only yesterday, we're moving farther away, want you near me

Chorus

D                                    E                    A                                    F#m  
All I needed was the love you gave, all I needed for another day,

D                                    E                    A  
And all I ever knew - only you.

V2

Sometimes when I think of her name, when it's only a game, and I need you  
Listen to the words that you say, it's getting harder to stay, when I see you.

V3

This is gonna take a long time and I wonder what's mine - can't take no more.  
Wonder if you'll understand, it's just the touch of your hand behind a closed  
door.
